

MANAGING LOGISTIC CHALLENGES BY EPCIS, GS1 IDENTIFICATION AND RFID

Benefits

- 50% reduction in time spent on searching for staff and equipment.
- 35% reduction in transportation of empty beds.
- 10 min. reduction in time ordering a bed.
- 5 min. reduction in delivery time.

Aarhus University Hospital

- 500,000 sqm
- 10,000 employees
- 100,000 in-patients
- 850,000 out-patients

Method

Use of Global unique identification for locations, transportations, assets and products in combination with the use of EPCIS makes cooperation between Danish regions possible, by collecting event data:

- What?
- Where?
- When?
- Why?
