The Global Language of Business

Procurement and patient care

Mr. Charles-Edouard Escurat, Deputy Director General, Resah GPO, France

Tuesday, april, 4th

The GIP Resah was created in 2007 as a public not-for-profit organisation (“contracting authority”) and is now one of the main key players of healthcare procurement in France.

2 main activities which bring **performance** to organizations working in the healthcare, medico-social and social sectors through procurements and associated logistics/expertises

Central Purchasing Body

Gathering hospitals & nursing home purchases

Ressource and Expertize center

Providing solutions through all value of chain

3 levels of activities:

1) Regional

2) National

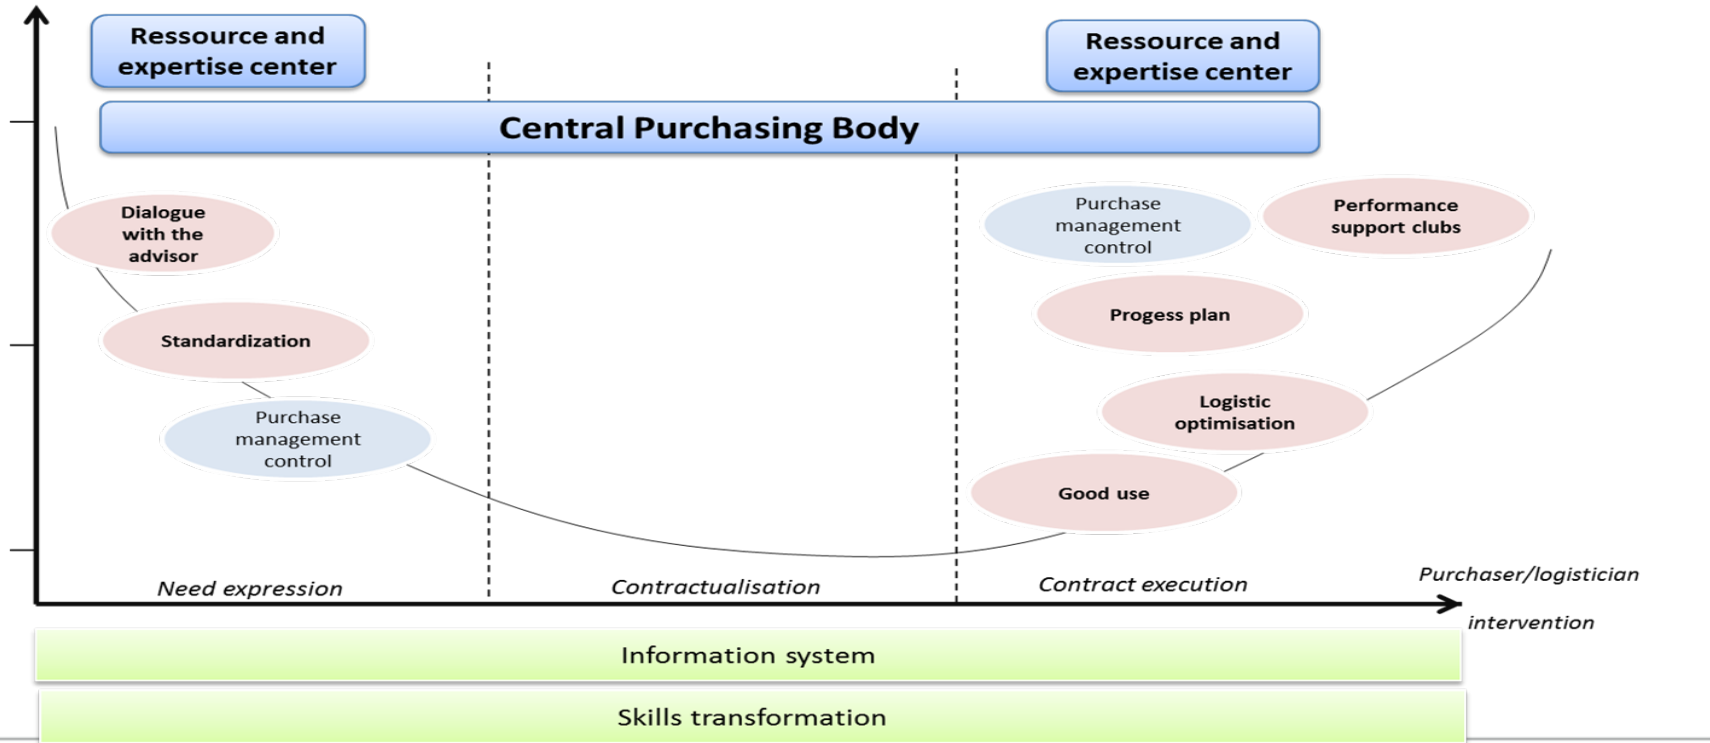

3) European

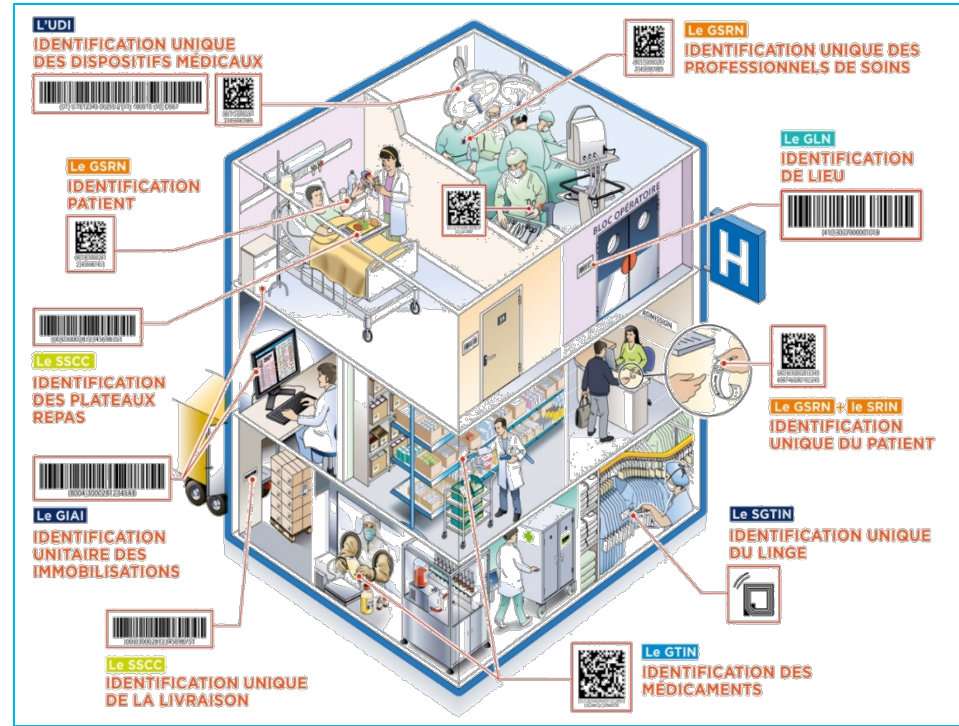

Value brought through procurement process

Added value

Information access to optimize patient care through purchasing

- ▶ Ensures an effective electronic procurement → continuity of supply
- ▶ Reduces supply costs linked to invoice reconciliation, credit claims, returns, refused deliveries
- ▶ Consolidate and update of logistical and clinical data to improve the supply chain efficiency and patient safety

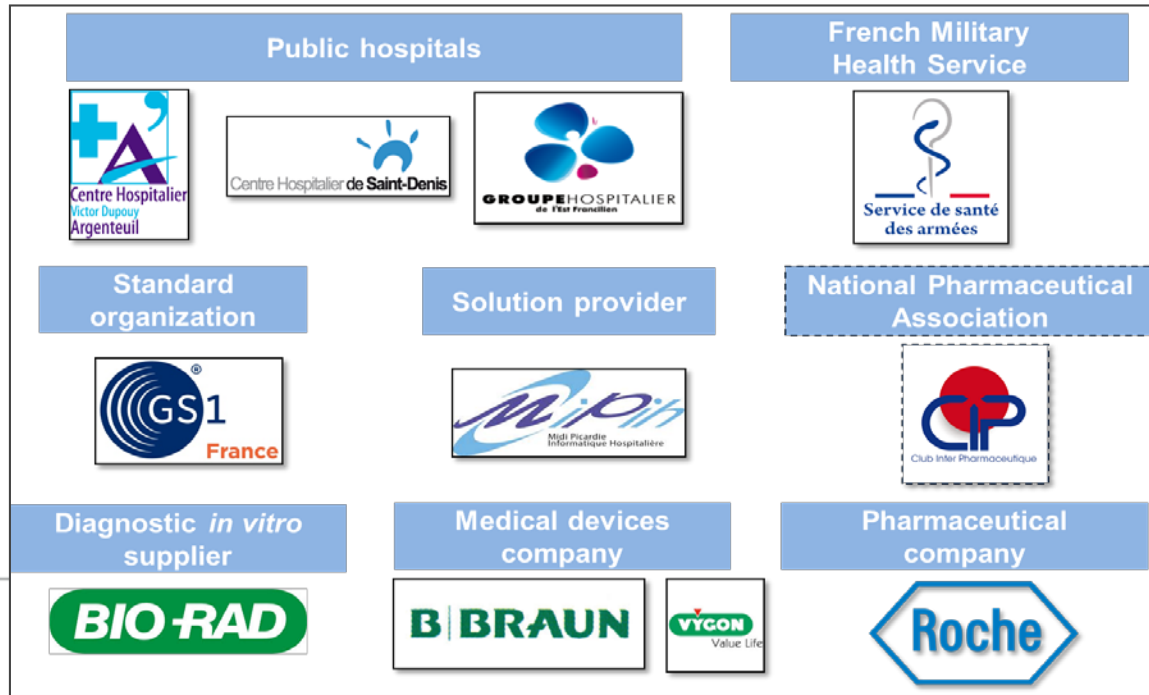

Why implementing an e-catalogue by exchanging master data?

- A technical subject
- A complex process
- An approach supported by national agencies

Organization of the pilot project – Why build a pilot project?

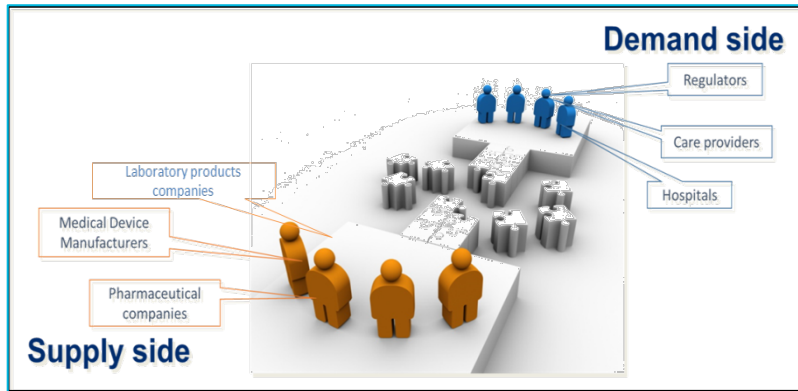

- To evaluate the technical details of implementation
- To demonstrate how GS1 standards can improve and make more efficient the relationship between health institutions and supplier

The new global approach

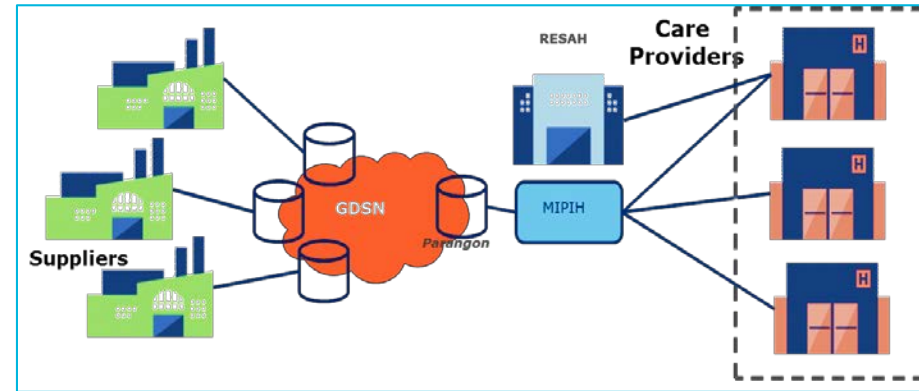

The needs

- For regulatory purposes (UDI)
- To answer e-procurement requirements from their partners
- To get accurate clinical data

The current answers : eCat-Santé

- **Published once for diffusion** : Connection to GDSN network via GS1 Parangon thanks to access points
- **One single subscription for all kinds of medical product information** : Interoperability with French hospital softwares

The new global approach

EX: FS04 A propos de Prodigie **plebon** Déconnexion

Conditionnement

Nom fonctionnel: ROBINET TROIS VOIES
Description longue: ROBINET 3 VOIES DISCOFIX BLEU
Description: ROBINET 3 VOIES DISCOFIX BLEU
GTIN: 04022495005250
Numéro interne: Entrer l'identifiant de votre produit
Conditionnement: BASE_UNIT_OR_EACH
Medical Devices

Informations générales

Nom de la marque	B. Braun Medical	Dates	Valide du 11/01/2017 au	Unités	<input checked="" type="checkbox"/> Unité de base
Pays d'origine			Disponible du 01/01/2017 au		<input checked="" type="checkbox"/> Unité consommateur
Marché cible	FRANCE		Publication 11/01/2017		<input type="checkbox"/> Unité logistique
Brique GPC	10005844		Mise à jour 11/01/2017 10:26		<input checked="" type="checkbox"/> Unité facturable
EAN					<input type="checkbox"/> Unité à mesure variable
Unités indivisibles					<input checked="" type="checkbox"/> Unité commandable
Numéro de catalogue	4095111				
Type de prescription					
Durée vie (en jours)	36				
Durée vie minimum commande					
Multiple de quantité de commande	50				

Fournisseur

GLN	3606380000004	Fabricant	GLN	Propriétaire	GLN
Raison sociale	B. Braun Medical F SAS		Raison sociale		Raison sociale

Spécifique dispositif médical

Code cladimed		Code LPPR		<input type="checkbox"/> DM stérile	
<input type="checkbox"/> Contient latex		Canal commercialisation		Méthode de stérilisation	

Logistique

Hauteur	20.0 MMT	Poids	7.0 GRM	Quantité minimum de livraison	50
Largeur	90.0 MMT	Contenu net		Type d'emballage	
Profondeur	40.0 MMT			<input type="checkbox"/> Emballage retournable	

Progress Report

Current actions

- Definition of a globally approved list of trade item description
- Mapping of the trade item description list and GS1 standards
- Test phase between suppliers and healthcare providers of the pilot project

Planification of work

- Communication and enlisting suppliers
- Integration of specific clauses in future procurements
