Key achievements

- GS1 standard (GLN) identifies all hospitals in India
- WHO recommendation to include GS1 standards on vaccines
- Danish Minister states “all Danish hospitals in the future have to use GS1 Standards”

New strategy- all healthcare providers and patients should benefit from global standards

We have to connect
even more closely
with Healthcare providers
so that patients,
who deserve the highest
quality of care,
benefit from
adoption & use of GS1
standards

We need your feedback

- How can GS1 improve and enable the processes in hospitals?
- How can GS1 help you better?

GS1 WANT TO HELP ENSURE HEALTHCARE PROVIDERS ADOPT GS1 STANDARDS AND REALIZE THE BENEFITS. HOW CAN WE DO THIS BETTER?

GS1 QUIERE ASEGURAR QUE PROVEEDORES DE SERVICIOS DE SALUD ADOPTEN LOS ESTÁNDARES GS1 Y HAGAN USO DE LOS BENEFICIOS. ¿CÓMO PODRÍAMOS HACERLO MEJOR? TODAS SUS SUGERENCIAS SON BIENVENIDAS.

**Share your ideas and thoughts on our wall
located in the conference foyer**

Thank you – Gracias!
